MILK PRICE HIGHLIGHTS

Class I prices: Early February prices paid by dealers for milk used for fluid purposes (Class I) averaged \$7.08 per hundredweight for about 150 markets, according to the Crop Reporting Board. This was 2 cents below January and 14 cents above a year earlier. Regional gains above a year earlier ranged from 6 cents in the West North Central Region to 28 cents in the East South Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early February averaged 57.6 cents per half gallon for the most common grade of milk. This was 0.2 cent below January and 0.6 cent above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 65.7 cents per half gallon in early February for 25 major cities. This price was 0.1 cent above last month and 1.5 cents above February 1970. The home-delivered price represents list prices before deductions for quantity and other discounts.

SPECIAL IN THIS ISSUE

Annual Price Summaries Pages 27-29

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS
OF MILK FROM PRODUCERS

Preliminary December sales: Preliminary data on total sales of fluid dairy products during December 1970 in 60 marketing areas averaged about the same as a year earlier. Preliminary total sales for the year of 1970 were about equal to total sales for 1969 for these same markets.

November sales: Revised total sales of fluid products for November in 60 regulated markets (55 Federal and 5 States) averaged about the same as last year's 3.2 billion pounds.

Whole milk sales in November were down about 2 percent from a year earlier sales of 2.5 billion pounds.

Low-fat and skim milk sales during November were 7 percent above a year earlier sales of 627 million pounds. The cumulative sales this year continued to be nearly 9 percent more than last year.

Milk and cream mixtures sales (mostly half and half) averaged nearly 8 percent below November 1969 sales of 35.9 million pounds. Sweet and sour cream sales were almost 3 percent above the 23 million pounds for November 1969.

Milk receipts: December receipts of milk from producers at plants regulated for 62 marketing areas (58 Federal and 4 States) were 4 percent larger than a year earlier, but the number of producers delivering milk to these markets was down nearly 2 percent.

Milk production: United States milk production in January was estimated at 9,547 million pounds, up 1 percent from a year earlier. January output provided 1.49 pounds of milk per person daily for all uses, the same as a year earlier, but more than the 1.46 pounds a month earlier.

Table 1. Class I prices paid by dealers for milk used in fluid products, February 1971 1/

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices are f.o.b. cities within markets on a 3.5% fat basis. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

2/ East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.

Table 2. Prevailing prices paid by consumers for the most common grade of whole milk, 25 cities, February 1971 1/

g=glass container.

p=paper container.

P=plastic container.

1/ Federal order market unless footnote indicates otherwise.

2/ Class I prices per cwt. are f.o.b. city on a 3.5% fat basis. Premium is above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Prevailing price includes Class I premium where reported.

4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prevailing prices represent the major portion of sales in each market and may not cover some sales as loss leaders or specials. All prices are the latest reported to the 10th of each month.

6/ Home delivered prices may be subject to quantity and other discounts.

7/ State-regulated minimum price prevails over Federal order minimum.

8/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% fat for Louisiana have been adjusted to 3.5 % fat.

9/ State-regulated minimum prices to dealers.

10/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

11/ Unregulated market.

12/ Not available.

13/ Price level based on Federal order freight zones applied to the 201-210-mile zone minimum for the N. Y.-N. J. Order No. 2

14/ Includes 4-cent service charge for first unit of each home delivery.

15/ Equivalent price per cwt. of whole milk, based on 3.5% fat and 8.622% solids not fat.

16/ Order requires additional direct - delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

17/ Louisiana State - regulated minimum price for New Orleans market for January and February \$7.57.

18/ \$6.80 not \$6.90.

19/ January same as February.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in (). Prices are f.o.b. base point per cwt. and on a 3.5% fat basis. 2/ Premium is above Federal order minimum as reported by principal producers' association. 3/ Includes Class I premium where reported. 4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of prevailing premiums. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Price is net to producers - after all deductions except capital retains. Not directly comparable to Federal order blend prices for the area. 8/ Based on prevailing blend price for 15¢ zone in Southern Michigan. 9/ State-regulated minimum prices at 4.0% for Louisiana adjusted to 3.5% fat. 10/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 11/ State-regulated minimum price prevails over Federal order minimum. 12/ Not available. 13/ Tulsa 10¢ less. 14/ Prices adjusted for seasonal incentive fund (Louisville plan). Dollars per cwt. added: January Paducah 61¢. 15/ December: North Carolina \$7.10. 16/ Order requires additional direct delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia. 17/ Louisiana State-regulated minimum price January \$7.57.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices are f.o.b. cities within markets on a 3.5% fat basis. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised f.o.b. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.

MILK PRICE HIGHLIGHTS

Class I prices: Early April prices paid by dealers for milk used for fluid purposes (Class I) averaged \$7.11 per hundredweight in about 150 markets, according to the Crop Reporting Board. This was 1 cent below March but 23 cents above a year earlier. Regional gains from a year earlier ranged from 8 cents in the Pacific Region to 29 cents in the South Atlantic Region.

Store milk prices: Store prices to consumers in 25 major cities in early April averaged 58.0 cents per half gallon for the most common grade of milk. This was 0.3 cent above March and 0.9 cent above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 66.3 cents per half gallon in early April for 25 major cities. This price was 0.3 cent above last month and 1.6 cents above April 1970. The home-delivered price represents list prices before deductions for quantity and other discounts.

SPECIAL IN THIS ISSUE

Fluid Milk and Cream Consumption, U. S. Page 27

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS
OF MILK FROM PRODUCERS

Preliminary February sales: Preliminary February data on total sales of fluid dairy products in 63 marketing areas averaged about 1 percent above a year earlier.

January sales: Revised January sales of fluid products in regulated markets (58 Federal and 5 State) averaged 3 percent below the 3.6 billion pounds a year earlier.

Whole milk sales during January were down over 5 percent from January 1970 sales of 2.8 billion pounds.

Low-fat and skim milk sales for January were up over 4 percent from a year earlier sales of 726.7 million pounds.

Milk and cream mixtures sales (mostly half and half) averaged nearly 11 percent below January 1970 sales of 37.8 million pounds. Sweet and sour cream sales were down nearly 2 percent from the 20 million pounds for January 1970.

Milk receipts: February receipts of milk from producers at plants regulated for 65 markets (61 Federal and 4 State) were up 4 percent from a year earlier. The number of producers delivering milk to plants for the same markets was down 1.5 percent from February 1970.

Milk production: United States milk production in March was estimated at 10,209 million pounds, up 1 percent from a year earlier. March output provided 1.59 pounds of milk per person daily for all uses, compared with 1.60 pounds a year earlier.

U. S. CONSUMPTION OF FLUID MILK AND CREAM, 1970

Total sales of fluid milk and cream in the United States during 1970 is estimated at 52.0 billion pounds of whole-milk equivalent, about 1.5 percent below 1969. Annual sales averaged 259 pounds per capita in 1970 -- down 7 pounds from 1969. Estimated per capita sales includes consumption by Armed Forces stationed in the U. S.

Total consumption of fluid milk and cream (sales plus household consumption on farms where produced) is estimated at 54.2 billion pounds. On a per capita basis, consumption averaged 265 pounds -- down 8 pounds from 1969.

These consumption estimates are expressed in whole-milk equivalents -- the quantity of whole milk, as produced, required to provide the milkfat in all fluid products.

g=glass container.

p=paper container.

P=plastic container.

1/ Federal order market unless footnote indicates otherwise.

2/ Class I prices per cwt. are f.o.b. city on a 3.5% fat basis. Over-order payment is above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Prevailing price includes over-order payments where reported.

4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prevailing prices represent the major portion of sales in each market and may not cover some sales as loss leaders or specials. All prices are the latest reported to the 10th of each month.

6/ Home delivered prices may be subject to quantity and other discounts.

7/ State-regulated minimum price prevails over Federal order minimum.

8/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at base fat test of 4.0% fat for Louisiana have been adjusted to 3.5% fat.

9/ State-regulated minimum prices to dealers.

10/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

11/ Unregulated market.

12/ Not available.

13/ Price level based on Federal order freight zones applied to the 201-210-mile zone minimum for the N. Y.-N. J. Order No. 2.

14/ Includes 4-cent service charge for first unit of each home delivery.

15/ Equivalent price per cwt. of whole milk, based on 3.5% fat and 8.622% solids not fat.

16/ Order requires additional direct-delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

17/ Louisiana State-regulated minimum price for New Orleans market April \$7.57.

18/ March over-order payments 38¢, prevailing price \$6.56.

19/ January, February, March prices same as April.

20/ February and March prices same as April.

21/ March same as April.

22/ March \$6.37.

1/ Includes all markets where there was a change in consumer price of 1 cent or more per half gallon, or a change in the Class I price of 23¢ or more per hundredweight. Changes effective 1st of the month unless noted.

2/ Consumer price changes effective:

April 5 - Syracuse - Toledo - Louisville

March 29 - Cleveland

March 15 - Marquette - Green Bay

March 16 - Omaha - San Antonio

March 22 - Nashville

March 24 - Phoenix

April 4 - Sacramento

3/ Not available.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in (). Prices are f.o.b. base point per cwt. and on a 3.5% fat basis. 2/ Over-order payment is above Federal order minimum as reported by principal producers' association. 3/ Includes Class I over-order payments where reported. 4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of over-order payments. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Price is net to producers - after all deductions except capital retains. Not directly comparable to Federal Order blend prices for the area. 8/ Based on prevailing blend price for 15¢ zone in Southern Michigan. 9/ State-regulated minimum prices at 4.0% for Louisiana adjusted to 3.5% fat. 10/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 11/ State-regulated minimum price prevails over Federal order minimum. 12/ Not available. 13/ Tulsa 10¢ less. 14/ Prices adjusted for seasonal incentive fund (Louisville plan). Dollars per cwt. Deductions:

March		March		March	
Mass.-R. I.	.10	Niagara Frontier	.10	Southern Ill.	.15
Connecticut	.20	Rochester	.10	St. Louis	.15
N. Y.-N. J.	.10	Central Ill.	.15		

15/ Order requires additional direct delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia. 16/ February: North Carolina, \$7.15; South Carolina (Jan.) \$7.14, (Feb.) \$7.40; Northern Louisiana, \$6.99. 17/ Louisiana State-regulated minimum price March \$7.57. 18/ Charleston market for January and February same as Southeast Ohio Valley. 19/ February over-order payment of 4 cents above Federal order minimum.

fluid milk and cream

MARCH 1971

Release:
March 19, 1971
3:00 P.M. EST

MILK PRICE HIGHLIGHTS

Class I prices: Early March prices paid by dealers for milk used for fluid purposes (Class I) averaged \$7.12 per hundredweight in about 150 markets, according to the Crop Reporting Board. This was 5 cents above February and 21 cents above a year earlier. Regional gains from a year earlier ranged from 7 cents in the Pacific Region to 29 cents in the East North Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early March averaged 57.7 cents per half gallon for the most common grade of milk. This was 0.1 cent above February and 0.7 cent above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 66.0 cents per half gallon in early March for 25 major cities. This price was 0.3 cent above last month and 1.5 cents above March 1970. The home-delivered price represents list prices before deductions for quantity and other discounts.

SPECIAL IN THIS ISSUE

Annual sales by groups of fluid itemsPage 26-28
Annual receipts and number of producers, 1969-1970 ...Page 29

SPECIAL NOTICE

Table Heading Notice: In Table 3, the heading that reads "Class I Premium" and related footnotes have been changed to read "over-order payments". This was done because certain payments reported by dealers as premiums above Federal Order minimums also included service charges to handlers.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS
OF MILK FROM PRODUCERS

Preliminary January 1971 sales: Preliminary data on total sales of fluid dairy products during January in 63 marketing areas averaged about 2.5 percent below a year earlier.

December 1970 sales: Revised December sales of fluid products in 60 marketing areas (55 Federal and 5 State) averaged about the same as last year's 3.4 billion pounds.

Whole milk sales during December 1970 were down 2 percent from a year earlier sales of 2.6 billion pounds.

Low-fat and skim sales for December 1970 were up about 6 percent from a year earlier sales of 665.6 million pounds.

Milk and cream mixtures sales (mostly half and half) averaged nearly 9 percent below December 1969 sales of 38.9 million pounds. Sweet and sour cream sales were up nearly 2 percent above the 29 million pounds for December 1969.

Milk receipts: January receipts of milk from producers at plants regulated for 65 markets (61 Federal and 4 State) were up 4.5 percent from a year earlier. The number of producers delivering milk to plants for the same markets was down over 1 percent from January 1970.

Milk production: United States milk production in February was estimated at 9,010 million pounds, up 1 percent from a year earlier. February output provided 1.56 pounds of milk per person daily for all uses compared with 1.55 pounds a year earlier.

ANNUAL SALES AND RECEIPTS

Sales during 1970: Sales of whole milk during 1970 in 60 marketing areas were nearly the same as 1969. Whole milk items include plain and flavored whole milk. The market areas include 55 Federal and 5 State markets for which comparable data are available for 1969 and 1970.

Low-fat and skim milk sales were up about 8 percent from 1969. Fluid items in this group include plain, solids-added, and flavored skim and low-fat milk, buttermilk and cultured specialties. Milk and cream mixture sales (mostly half and half) were down 7 percent from 1969. Sales of cream items were down 1 percent.

Receipts during 1970: Daily receipts of milk from producers at regulated plants averaged 172 million pounds in 1970--about 4 percent above 1969. Data for regulated plants include 58 Federal and 4 State markets which are comparable for the years 1969-1970. The average number of producers on these markets during 1970 was about 139 thousand--down nearly 2 percent from 1969. Daily deliveries to plants by these producers averaged 1,242 pounds--up 6 percent from 1969.

1/ Regional and U.S. average based on prices for individual markets weighted by population. Prices are f.o.b. cities within markets on a 3.5% fat basis. Prices for Federal-order markets include over-order payments above minimum Class I prices, reported by principal producers' associations. Over-order payments may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

2/ East North Central revised to include 26-cent service and freight charges for the Chicago market not previously included.

3/ Revised.

g=glass container.

p=paper container.

P=plastic container.

1/ Federal order market unless footnote indicates otherwise.

2/ Class I prices per cwt. are f.o.b. city on a 3.5% fat basis. Over-order payment is above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Prevailing price includes Class I over-order payments where reported.

4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prevailing prices represent the major portion of sales in each market and may not cover some sales as loss leaders or specials. All prices are the latest reported to the 10th of each month.

6/ Home delivered prices may be subject to quantity and other discounts.

7/ State-regulated minimum price prevails over Federal order minimum.

8/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% fat for Louisiana have been adjusted to 3.5 % fat.

9/ State-regulated minimum prices to dealers.

10/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

11/ Unregulated market.

12/ Not available.

13/ Price level based on Federal order freight zones applied to the 201-210-mile zone minimum for the N. Y.-N. J. Order No. 2

14/ Includes 4-cent service charge for first unit of each home delivery.

15/ Equivalent price per cwt. of whole milk, based on 3.5% fat and 8.622% solids not fat.

16/ Order requires additional direct - delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

17/ Louisiana State - regulated minimum price for New Orleans market for March \$7.57.

18/ February: \$6.32 at Fort Wayne, \$6.26 at Gary, \$6.36 at Indianapolis, \$6.28 at South Bend.

p = Paper container.

P = Plastic container.

1/ Includes all markets where there was a change in consumer price of 1 cent or more per half gallon, or a change in the Class I price of 23¢ or more per hundredweight. Changes effective 1st of the month unless noted.

2/ Consumer price changes effective:

- February 15 - Chicago
- March 8 - Marquette
- February 20 - Omaha
- March 4 - Kansas City
- March 2 - Paducah
- February 22 - Phoenix
- February 28 - Fresno
- February 14 - Los Angeles

3/ Not available.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in (). Prices are f.o.b. base point per cwt. and on a 3.5% fat basis. 2/ Over-order payment is above Federal order minimum as reported by principal producers' association. 3/ Includes over-order payments where reported. 4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of over-order payments. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Price is net to producers - after all deductions except capital retains. Not directly comparable to Federal Order blend prices for the area. 8/ Based on prevailing blend price for 15¢ zone in southern Michigan. 9/ State-regulated minimum prices at 4.0% for Louisiana adjusted to 3.5% fat. 10/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 11/ State-regulated minimum price prevails over Federal order minimum. 12/ Not available. 13/ Tulsa 10¢ less. 14/ January: North Carolina, \$7.20; central Illinois, \$5.69; December: South Carolina, \$6.94. 15/ Order requires additional direct delivery differential above, F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia. 16/ Louisiana State-regulated minimum price February \$7.57. 17/ January prevailing blend 10/\$5.53.

MILK PRICE HIGHLIGHTS

Class I prices: Early May prices paid by dealers for milk used for fluid purposes (Class I) averaged \$7.14 per hundredweight in about 150 markets, according to the Crop Reporting Board. This was 3 cents above April and 25 cents above a year earlier. Regional gains from a year earlier ranged from 14 cents in the West South Central Region to 30 cents in the East North Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early May averaged 57.9 cents per half gallon for the most common grade of milk. This was 0.1 cent below April but 0.8 cent above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 66.7 cents per half gallon in early May for 25 major cities. This price was 0.4 cent above last month and 1.9 cents above May 1970. The reported home-delivered prices represent list prices before deductions for quantity or other discounts.

SPECIAL IN THIS ISSUE

Annual Sales of Fluid Products by Marketing Areas Pages 29-36
Per Capita Consumption by Marketing Areas Pages 37-44

SALES OF FLUID DAIRY PRODUCTS AND
RECEIPTS OF MILK FROM PRODUCERS

Preliminary March sales: Preliminary March data on total sales of fluid dairy products in 63 marketing areas averaged about 4 percent above a year earlier.

February sales: Revised February sales of fluid products in regulated markets (58 Federal and 5 State) averaged 1 percent above the 3.2 billion pounds a year earlier.

Whole milk sales during February were down over 1 percent from February 1970 sales of 2.5 billion pounds.

Low-fat and skim milk sales for February were up 10 percent from a year earlier sales of 651 million pounds.

Milk and cream mixtures sales (mostly half and half) averaged nearly 8 percent below February 1970 sales of 34 million pounds.

Milk receipts: March receipts of milk from producers at plants regulated for 64 markets (60 Federal and 4 State) were up 4 percent from a year earlier. The number of producers delivering milk to plants for the same markets were down 1 percent from March 1970.

Milk production: United States milk production in April was estimated at 10,432 million pounds, up 1 percent from a year earlier. April output provided 1.68 pounds of milk per person daily for all uses, compared with 1.59 pounds a year earlier.

ANNUAL SALES AND PER CAPITA CONSUMPTION OF FLUID PRODUCTS
BY MARKETING AREAS, 1969 AND 1970

Sales and per capita consumption data for fluid products are shown in tables 9 and 10 of this publication. The data are for 60 marketing areas where comparable information is available for 1969 and 1970. These data continue the consumption series published for 1950-59 in Statistical Bulletin No. 312 (May 1962) and in May issues of the Fluid Milk and Cream Report in 1962 through 1970. Data for 1970 are preliminary.

The per capita estimates are derived data and not intended as precise measurements of levels of consumption. Sales data for each specific area were reported primarily for regulatory purpose. In some areas, sales by producer - distributors exempt from regulation are not included in the totals. However, data for each area are comparable from year to year unless footnotes indicate otherwise.

The 60 marketing areas for which comparable sales and population data are available for 1969 and 1970 have an estimated 1970 population of about 149 million people. This represents about 73 percent of the total United States population using purchased milk.

PER CAPITA CONSUMPTION

Total fluid products: Total per capita consumption of fluid dairy products, based on total pounds of products sold during 1970, was higher than the previous year for 25 of the 60 comparable market areas, unchanged in 3 market areas and lower in 32. Increases of 10 or more pounds per person were estimated in 4 areas and decreases of 10 or more pounds occurred in 9 areas.

Whole milk products: Consumption of whole milk products per person during 1970 in the 60 comparable markets was higher in 12 areas but lower in 44 areas. Consumption rate increases of 10 or more pounds from 1969 occurred in 3 of the areas. Consumption rate decreases of 10 or more pounds from 1969 occurred in 17 market areas.

Low-fat and skim milk products: Per capita consumption of low-fat and skim milk products in 1970 was higher than in 1969 in 47 of the 60 market areas. Increases of 10 or more pounds were indicated in 11 of these areas.

Cream products (milk equivalent): The milk equivalent of cream consumed per person during 1970 was below a year earlier in 42 of the 59 comparable market areas for which data are available. The 1970 consumption was about the same as 1969 in 6 areas, and up slightly in 11 areas. Fluid cream products include mixtures of milk and cream, eggnog, sour cream, and sweet cream of various tests.

Total fluid products (milk equivalent): Per capita consumption of fluid products, in terms of milk equivalent on a fat basis, were higher in 17 of the 59 comparable market areas, lower in 37 and unchanged in 5. Increases of 10 or more pounds per person were estimated in 6 areas while decreases of 10 or more pounds occurred in 13 areas. (Milk equivalent is the quantity of milk, as produced, which is required to furnish the milkfat in the products sold.)

SOURCES OF DATA

Sales Data:

Sales data for 54 marketing areas were provided by Federal Order Administrators. Data for the other 6 areas were provided by the following agencies: Niagara Frontier and Rochester - New York Division of Milk Control, State Department of Agriculture and Markets; New Jersey - Office of Milk Industry, State Department of Agriculture; North Carolina - State Milk Commission; South Carolina - State Dairy Commission; and California Crop and Livestock Reporting Service.

Population Data:

Population estimates for marketing areas which cover parts of States are based on trends in the latest available population estimates for counties and local areas. Annual population estimates are available by counties from various State and local agencies and from U. S. Census Bureau estimates. For marketing areas which cover entire States, population estimates are based on Current Population Reports issued by the U. S. Census Bureau. All population estimates are adjusted to a July 1 date to approximate the annual average.

Population estimates and per capita consumption rates for 1969 have been revised for areas where significant revisions in population were indicated by the 1970 Census.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices are f.o.b. cities within markets on a 3.5% fat basis. Prices for Federal-order markets include over-order payments above minimum Class I prices, reported by principal producers' associations. Over-order payments may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

g=glass container.

p=paper container.

P=plastic container.

1/ Federal order market unless footnote indicates otherwise.

2/ Class I prices per cwt. are f.o.b. city on a 3.5% fat basis. Over-order payment is above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Prevailing price includes over-order payment where reported.

4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prevailing prices represent the major portion of sales in each market and may not cover some sales as loss leaders or specials. All prices are the latest reported to the 10th of each month.

6/ Home delivered prices may be subject to quantity and other discounts.

7/ State-regulated minimum price prevails over Federal order minimum.

8/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at base fat test of 4.0% fat for Louisiana have been adjusted to 3.5% fat.

9/ State-regulated minimum prices to dealers.

10/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

11/ Unregulated market.

12/ Not available.

13/ Price level based on Federal order freight zones applied to the 201-210-mile zone minimum for the N. Y.-N. J. Order No. 2.

14/ Includes 4-cent service charge for first unit of each home delivery.

15/ Equivalent price per cwt. of whole milk, based on 3.5% fat and 8.622% solids not fat.

16/ Order requires additional direct-delivery differential above F.O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

17/ Louisiana State-regulated minimum price for New Orleans market May \$7.57.

18/ January through April 107-119 cents.

19/ Over-order payment was .05 from January through April.

20/ April same as May.

21/ April 108 cents.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in (). Prices are f.o.b. base point per cwt. and on a 3.5% fat basis. 2/ Over-order payment is above Federal order minimum as reported by principal producers' association. 3/ Includes over-order payment where reported. 4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of over-order payments. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Price is net to producers - after all deductions except capital retains. Not directly comparable to Federal Order blend prices for the area. 8/ Based on prevailing blend price for 15¢ zone in Southern Michigan. 9/ State-regulated minimum prices at 4.0% for Louisiana adjusted to 3.5% fat. 10/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 11/ State-regulated minimum price prevails over Federal order minimum. 12/ Not available. 13/ Tulsa 10¢ less. 14/ Prices adjusted for seasonal incentive fund (Louisville plan). Dollars per cwt. Deductions:

MARKETS COMBINED IN SALES AND RECEIPTS TABLES

The following markets have been combined in sales and receipts tables of this report: Middle Atlantic: Delaware Valley; Washington, D. C.; Upper Chesapeake Bay, Maryland; Ohio Valley: Cincinnati, Columbus, Miami Valley, Northwestern Ohio, Tri-State; Illinois-Central Illinois, Southern Illinois; (Sales only); Michigan-Upper Peninsula, Southern, (Sales only), Upstate; Minnesota-Duluth-Superior, Minneapolis-St. Paul (Sales only); Iowa-Cedar Rapids, Des Moines, North Central, Quad Cities-Dubuque; Missouri-Kansas City, St. Louis-Ozarks; South Dakota-Black Hills, Eastern; Kansas-Neosho Valley, Wichita; Florida-Southeastern Florida, Tampa Bay, Upper Florida; Kentucky-Indiana-Louisville-Lexington-Evansville, Paducah; Tennessee-Chattanooga, Knoxville, Memphis, Nashville; Arkansas-Central, Ft. Smith; Louisiana-New Orleans, Northern; Texas-Austin-Waco, Central West, Corpus Christi, Lubbock-Plainview, North Texas (Sales only), Panhandle, San Antonio; Colorado-Eastern, Western; Washington-Inland Empire, Puget Sound.

FOOTNOTES FOR SALES AND RECEIPTS TABLES

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed above. 3/ Data from State sources for sales and for producers located in the State. 4/ Includes Federal Order sales data for Southern New Jersey. 5/ Includes Federal Order data for New Jersey producers which are also included in State-reported totals. 6/ Excludes State-reported data for New Jersey to avoid duplication with Federal Order data. Average fat test for markets where milk-fat totals are reported. 7/ Excludes State-reported data for New Jersey to avoid duplication with F.O. data. 8/ Estimated. 9/ Not comparable. 10/ Not available.

Footnotes for Tables 9 and 10

- 1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data for other markets provided by State agencies. Data are revised for 1969, preliminary for 1970; adjusted to a comparable basis for the two years where marketing areas for regulation have been changed significantly.
- 2/ Federal order market unless footnote indicates otherwise.
- 3/ Quantities sold and per capita consumption within the defined Federal Order marketing area or other specified geographic area.
- 4/ Milk equivalent data represent the quantity of producer milk at average test required to provide the milkfat in the respective product groupings.
- 5/ Includes Federal order sales data for Southern New Jersey.
- 6/ Data from State milk control agency.
- 7/ Data for marketing area as defined after the 1970 amendments.
- 8/ Light cream included with sour cream.
- 9/ Eggnog included in whole milk.
- 10/ Not available.
- 11/ Excludes yogurt and sour cream.
- 12/ Yogurt included with buttermilk where individual plant data might be disclosed.
- 13/ Skim milk (plain) included with skim milk (solids added).
- 14/ Low-fat (plain) included with low-fat milk (solids added).
- 15/ Low-fat (solids added) included with skim milk (solids added).
- 16/ Skim milk (flavored) included with skim milk (solids added).
- 17/ Light cream included in heavy cream.
- 18/ Sour cream included in heavy cream.
- 19/ Eggnog included in mixtures.
- 20/ Includes fluid milk equivalent of concentrated milk.
- 21/ Skim milk (plain) and skim milk (flavored) included with skim milk (solids added).
- 22/ Skim milk (solids added) included with skim milk (plain).
- 23/ Pastry cream in eggnog column and table cream in light cream column.
- 24/ Not comparable for 1969-1970.

MILK PRICE HIGHLIGHTS

Class I prices: Early June prices paid by dealers for milk used for fluid purposes (Class I) averaged \$7.11 per hundredweight for about 150 markets, according to the Crop Reporting Board. This was 23 cents above a year earlier. Regional gains from a year earlier ranged from 13 cents in the West South Central Region to 31 cents in the East North Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early June averaged 58.0 cents per half gallon for the most common grade of whole milk. This is up 0.2 cent from early May and 0.9 cent above June 1970.

Home-delivered prices: Home-delivered milk averaged 66.8 cents per half gallon in June for 25 major cities. This was up 0.1 cent from May and 1.9 cents above June 1970. Home-delivered prices represent list prices before quantity or other discounts.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS
OF MILK FROM PRODUCERS

Preliminary April sales: Preliminary April data on total sales of fluid dairy products in 63 marketing areas averaged about 1 percent above a year earlier.

March sales: Revised March sales of fluid products in 63 regulated markets (58 Federal and 5 State) averaged 5 percent above the 3.4 billion pounds a year earlier. March 1971 included 1 less Sunday than in 1970.

Whole milk sales during March were up 3 percent from 2.7 billion pounds in March 1970.

Low-fat and skim milk sales for March 1971 were up 13 percent from the year-earlier total of 712 million pounds.

Milk and cream mixtures sales (mostly half and half) were 6 percent below the 1970 level of 37 million pounds. Cream sales for March were 1 percent below the year-earlier total of 22 million pounds.

Milk receipts: April receipts of milk from producers at plants regulated for 64 markets (60 Federal and 4 State) were up 5 percent from a year earlier. The number of producers delivering milk to plants for the same markets was down 1 percent from April 1970.

Milk production: May 1971 milk production for the United States was estimated at 11.2 billion pounds, 1 percent more than a year earlier. May output provided 1.75 pounds of milk per person daily for all uses, the same as a year earlier, but above the 1.68 pounds the previous month.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices are f.o.b. cities within markets on a 3.5% fat basis. Prices for Federal-order markets include over-order payments above minimum Class I prices, reported by principal producers' associations. Over-order payments may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6. 2/ Revised.

g=glass container.

p=paper container.

P=plastic container.

1/ Federal order market unless footnote indicates otherwise.

2/ Class I prices per cwt. are f.o.b. city on a 3.5% fat basis. Over-order payment is above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.

3/ Prevailing price includes over-order payment where reported.

4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%.

5/ Prevailing prices represent the major portion of sales in each market and may not cover some sales as loss leaders or specials. All prices are the latest reported to the 10th of each month.

6/ Home delivered prices may be subject to quantity and other discounts.

7/ State-regulated minimum price prevails over Federal order minimum.

8/ State-regulated minimum prices to both dealers and consumers. Class I prices announced at base fat test of 4.0% fat for Louisiana have been adjusted to 3.5% fat.

9/ State-regulated minimum prices to dealers.

10/ Class I prices regulated under Federal order. State-regulated minimum prices to consumers.

11/ Unregulated market.

12/ Not available.

13/ Price level based on Federal order freight zones applied to the 201-210-mile zone minimum for the N. Y.-N. J. Order No. 2.

14/ Includes 4-cent service charge for first unit of each home delivery.

15/ Equivalent price per cwt. of whole milk, based on 3.5% fat and 8.622% solids not fat.

16/ Order requires additional direct delivery differential above F. O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

17/ Louisiana State-regulated minimum price for New Orleans market June \$7.57.

18/ April and May Over-order payment 2 cents.

19/ May same as June.

1/ Federal order market unless footnote indicates otherwise. Base point for prices shown in (). Prices are f.o.b. base point per cwt. and on a 3.5% fat basis. 2/ Over-order payment is above Federal order minimum as reported by principal producers' association. 3/ Includes over-order payment where reported. 4/ Fat differential per cwt. is for each 0.1% plus or minus variation from a fat test of 3.5%. 5/ Blend price reported by principal producers' association, including the effect of over-order payments. Weighted average of prices for base and excess milk, where such plans are in effect. 6/ State-regulated market. 7/ Price is net to producers - after all deductions except capital retains. Not directly comparable to Federal Order blend prices for the area. 8/ Based on prevailing blend price for 15¢ zone in Southern Michigan. 9/ State-regulated minimum prices at 4.0% for Louisiana adjusted to 3.5% fat. 10/ Producers' association blend price is below Federal order minimum blend price because of re-pooling with milk sold outside this order. 11/ State-regulated minimum price prevails over Federal order minimum. 12/ Not available. 13/ Tulsa 10¢ less. 14/ Prices adjusted for seasonal incentive fund (Louisville plan). Dollars per cwt. Deductions:

May		May		May		May	
Mass.-R. I.	.30	Rochester	.30	Charleston O. V.	.25	St. Louis-Ozarks	.25
Connecticut	.40	Northwest O. V.	.25	Indiana	.30	Lou.-Lex.-Evns.	.40
N. Y.-N. J.	.30	Central O. V.	.25	Central Ill.	.25	Paducah	.50
Niagara Frontier	.30	Southwest O. V.	.25	Southern Ill.	.25		

15/ Order requires additional direct delivery differential above F. O. minimum of 6 cents per cwt. delivered within 55 miles of Philadelphia.

16/ April: North Carolina \$7.11; South Carolina \$6.99.

17/ Louisiana State-regulated minimum price May \$7.57.

FOOTNOTES FOR SALES AND RECEIPTS TABLES

- 1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown.
- 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed above.
- 3/ Data from State sources for sales and for producers located in the State.
- 4/ Includes Federal Order sales data for Southern New Jersey.
- 5/ Includes Federal Order data for New Jersey producers which are also included in State-reported totals.
- 6/ Excludes State-reported data for New Jersey to avoid duplication with Federal Order data. Average fat test for markets where milk-fat totals are reported.
- 7/ Excludes State - reported data for New Jersey to avoid duplication with F. O. data.
- 8/ Estimated.
- 9/ Not comparable.
- 10/ Not available.
